

SHREYASH JADHAV

Fullstack Developer

☎ +91-9067094214 ✉ shreyashjadhav59807@gmail.com 🔗 linkedin.com/in/shreyashjadhav

Summary

Full-Stack MERN Developer skilled in JavaScript, TypeScript, React, Node.js, Express, MongoDB, Docker, Kubernetes, and CI/CD pipelines. Experienced in building scalable backend systems, secure APIs, real-time features, and optimized frontend architectures. Passionate about clean code, performance, and delivering production-ready solutions.

Skills

Programming: JavaScript, TypeScript

Technologies & Tools: React, Next.js, Prisma, GSAP, Redux (Saga & Thunk), WebSocket, MongoDB, Node.js, Express, NestJS, Zod, Redis, AWS (S3, Lambda), Kubernetes, CI/CD, Docker

Experience

Full-Stack Developer Intern

Sep 2025 – Oct 2025

- Developed a full-stack social media application. **complete backend API system using Node.js, Express, Postgresql, and Prisma**, ensuring clean modular architecture and high performance.
- Implemented **post upload and image handling using Multer**, improving upload speed **10x**
- Implemented image compression and upload via Multer + Sharp, improving media upload speed by **10x**.
- **Created product management APIs** for an e-commerce platform, supporting product creation, **search, filtering** and **inventory** handling.
- Developed an **Add-to-Cart module with quantity updates and automatic subtotal calculation**.
- Integrated **AuthJS**, and secure **API practices** to ensure data safety. **delivered all assigned tasks on time**.

Projects

Hall Booking System | [Live link](#)

Jun 2025 – Sep 2025

- **Built a full production-ready booking platform** for events with real-time availability, plan selection, and automated booking workflows.
- **Integrated Razorpay payments** with server-side amount **validation, signature verification, rate limiting**, and custom webhook handlers.
- Developed **full authentication system** using **Auth.js (Google OAuth)**, credentials login (bcrypt), JWT sessions, and **OTP-based password reset**.
- Created an **Admin Dashboard** for managing bookings, analytics, user queries, and content moderation.
- Implemented feedback, **contact, and issue-reporting systems with Multer → Cloudinary uploads** for tracking.
- **Optimized performance** via dynamic imports, **lazy loading, Prisma indexing**, Zustand store, and API-level caching.
- Built and **deployed Dockerized applications on Kubernetes, implementing Ingress, TLS certificate management, and secure environment variable(encoded) management**. pod-level configuration.
- **Tech:** Next.js, TypeScript, Turborepo, Tailwind, Shadcn UI, GSAP, Node.js, Firebase OTP, Prisma, Razorpay, Cloudinary, Resend, Docker, Kubernetes.

E-Commerce Platform | [GitHub](#)

Sep 2025 – Oct 2025

- **Built a scalable e-commerce system** with user login, product browsing, cart handling, and secure order placement.
- Implemented **NestJS authentication** using bcrypt, cookie-based sessions, and role-based access control (admin/user).
- Built an **Admin Panel for Integrated Multer managing products, and orders with protected admin routes**.
- **Tech:** React, Redux-Saga, NestJS, MongoDB, TypeScript, Multer, Shadcn UI, GSAP.

Awards & Certifications

- **Code Alpha Internship:** Successfully completed tasks with on-time delivery and high-quality implementation.

Education

Bachelor of Computer Application

SVPM College, Malegaon

Graduated: 2024

CGPA: 7.91 / 10
